

LLK-03 LED Lighting/Meter Heatsink Plate Kit

The LLK-03 LED Lighting Kit is a high-quality and high-performance multi-purpose LED lighting enclosure. LED lighting is the future of lighting for high efficiency and rugged long life applications. There are no UV light, high temperatures, slow warm-up, large size and general safety problems associated with other lighting systems. The aluminum heatsink plate provides high thermal conductivity, light weight and high strength for optimum performance of high power, star-type white or coloured LEDs. Up to 6 LEDs can be used to provide up to 12W of lighting in multi-coloured special effects or general lighting. The tough

1/8" clear Lexan window provides good protection against damages. The enclosure is also suitable for other instruments, meters and displays for surface mounting or onto standard electrical boxes.

Features:

- Large aluminum heatsink plate. >12W
- Surface or electrical box mounting
- Compact, light weight, durable
- Easy mounting and installation
- Space for control box and accessories
- no gluing of LEDs
- High-power, multi-purpose design
- Tough Lexan window

Benefits:

- Maximise and maintains peak LED performance
- Configurable for various lighting applications.
- Efficient and low cost, long life illumination

Applications:

- Landscape, area, architectural lighting
- Sturdy metal enclosure
- Replace light bulb lighting

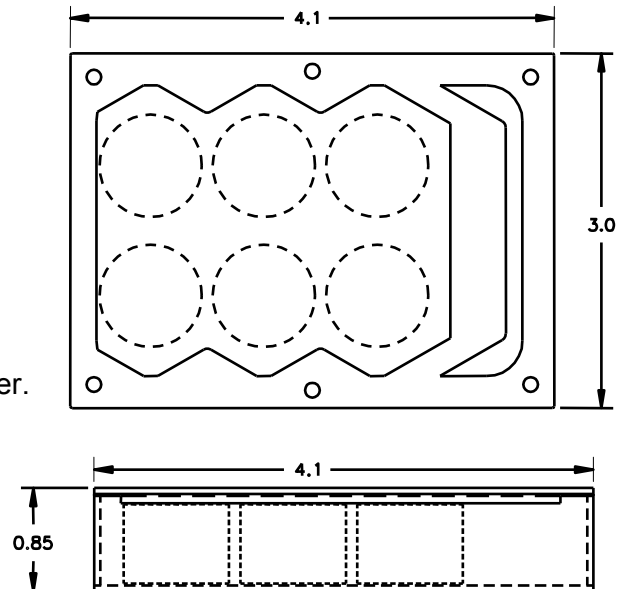

Technical Specifications:

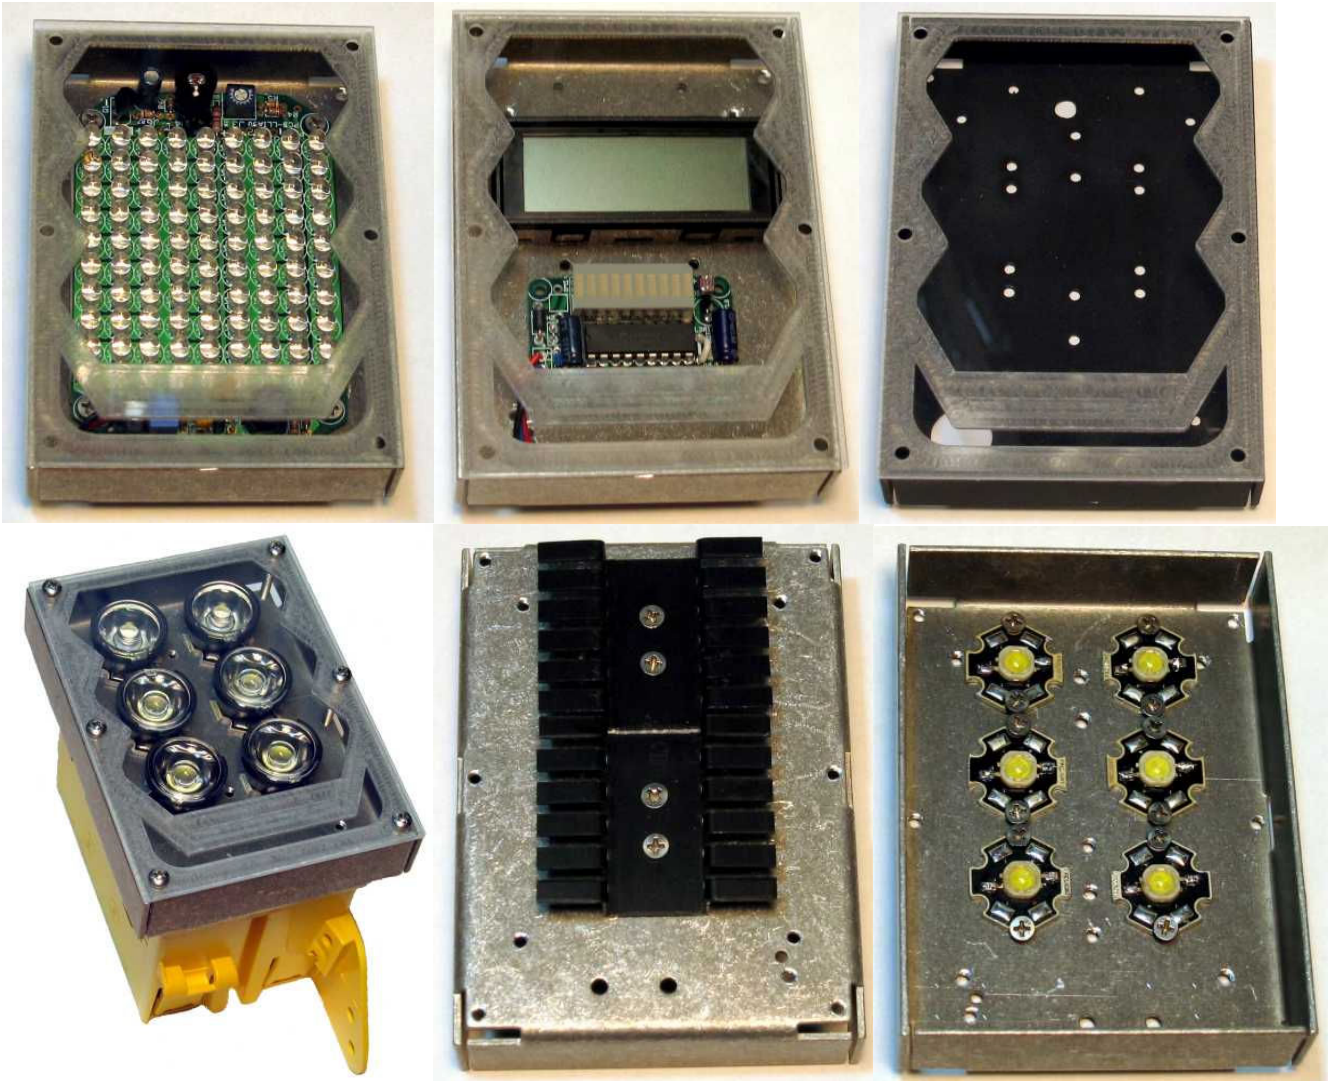

LLK-03 LED Lighting Kit assembly:

- Heatsink: 3.0"(W) x 0.85"(H) x 4.1"(L)
1/16" aluminum, tumbled finish
#4-40 threads on 3/32" holes
- Window: 1/8" clear Lexan, CNC machined
- Hardware: #4 machine bolt, all stainless steel
- Weight: 3.5 Oz. (99g)

Optional accessories:

- Heatsink: TO-220/TO-3 or larger
Size to suit power dissipation.
- LED driver: Current regulated LED driver and controller.
- LED lens: LED light collimator (lens) and holder
- LED array: 6 Star-type, high power , 1-3W
Onstate LLK-01 IA90 LED array kit
- Hardware: Various #4 and #6 bolts

LLK-03 LED Lighting/Meter Heatsink Plate Kit mounted with various LED arrays and meters.

DO NOT STARE DIRECTLY INTO THE LED LIGHT
