

Multi-purpose 10-LED Bargraph Display Board

The DSP10 is a multi-purpose 10-LED bargraph display PCB for use as a stand-alone bargraph display or with Onstate bargraph meter modules (BM-4). It is designed for use with 3mm and 5mm LEDs with common positive wiring. A custom 10-segment LED display using multiple colour LEDs will provide a bright, appealing look to any project. Its small size, multi-function design makes it very useful as multi-purpose indicators not possible with standard 10-segment bargraph displays.

PCB specification:

1. 1/16" glass fiber. FR4 type, RoHS and lead-free.
2. Through-hole plated, HASL.
3. Thick copper traces, double-sided traces.
4. Robust design, reliable operation.
5. 11 pin header at 0.1" spacing.
6. T1 (3mm) or T1-3/4 (5mm) LEDs.
7. 2x 3/32" mounting hole.
8. 0.45" x 2.40"
